

Mrinmoy Talukder

Guwahati, Assam, India | mrinmoytalukdergcu@gmail.com | [GitHub](#) | [LinkedIn](#) | [Medium](#)

Professional Summary

Data Scientist with 2 internships and a strong foundation in statistical analysis, machine learning, and data-driven decision making. Designed and deployed a **Hybrid NLP-based Recommendation System** and achieved **94.63% accuracy** on a fraud detection model trained on 6.3M+ records. Proficient in the full data science lifecycle — from data collection, cleaning, and exploratory analysis to model development, evaluation, and deployment. Pursuing M.Sc. in AI & Data Science; passionate about turning raw data into actionable business insights.

Technical Skills

Languages: Python, SQL **Data Science Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Sentence Transformers, Joblib

Machine Learning: Supervised Learning, Classification, Logistic Regression, KNN, Feature Engineering, Hyperparameter Tuning, Cross-Validation, Model Evaluation, Predictive Modeling, Recommendation Systems

Data Science: Exploratory Data Analysis (EDA), Statistical Analysis, Data Wrangling, Data Preprocessing, Data Visualization, Business Intelligence, Insight Generation

NLP & AI: Natural Language Processing (NLP), Semantic Embeddings, Text Feature Extraction, Cosine Similarity

Tools & Deployment: Streamlit, Jupyter Notebook, Git, GitHub, VS Code, HTML, CSS

Data Science Experience

Data Science Intern – AI/ML Summer Intern

July 2026 – Aug 2026

XopunTech (India) Pvt. Ltd.

- Designed and deployed a **Hybrid Amazon Product Recommendation System** leveraging NLP and ML to deliver personalized product suggestions based on semantic and numerical feature similarity. [\[GitHub\]](#)
- Applied **Sentence Transformers** for semantic embeddings; engineered hybrid feature vectors combining text embeddings with scaled numerical attributes (ratings, price, discount).
- Implemented **KNN with Cosine Similarity** for fast recommendations; deployed production-ready web app using Streamlit. Executed full data science pipeline: EDA, feature engineering, model training, and deployment.

Data Analysis Intern

May 2026 – June 2026

Cognifyz IT Solutions Pvt. Ltd. (ISO 9001:2015 Certified) | Intern ID: CTI/A1/C348555

- Performed **EDA and statistical analysis** on a multi-country restaurant dataset to extract business insights. [\[GitHub\]](#)
- Discovered delivery-enabled restaurants scored **31.4% higher ratings**; performed **geospatial analysis** via lat/long clustering to support data-driven market expansion recommendations.

Data Science Projects

Fraud Detection System | Python, Scikit-learn, Logistic Regression, Streamlit | [GitHub](#)

2024

- Developed a **production-grade fraud detection model** on **6.3M+ financial transaction records** achieving **94.63% accuracy** and **94% recall** on the minority fraud class.
- Handled severe **class imbalance** via class-weight balancing; evaluated using precision, recall, F1-score, and confusion matrix. Deployed real-time **prediction dashboard** using Streamlit.

Telecom Customer Churn Prediction | Python, Pandas, Matplotlib, Seaborn | [GitHub](#)

2024

- Conducted **customer behavior analysis** on 7,043 records; uncovered **26.54% churn rate** and identified key churn drivers – contract type, tenure, and payment method.
- Delivered **actionable business intelligence** and data-backed customer retention recommendations to reduce churn risk across high-value segments.

Education

M.Sc. Computer Science – Artificial Intelligence & Data Science

2025 – Present

Girijananda Chowdhury University

Guwahati, Assam

- Relevant Coursework: Machine Learning, Statistical Modeling, Data Science, Artificial Intelligence, NLP

B.Sc. Information Technology

Completed

Gauhati University

Guwahati, Assam

Certifications & Additional

- **Internship Completion Certificate** – XopunTech (India) Pvt. Ltd., AI/ML Summer Intern (Aug-2026)
- **Internship Completion Certificate** – Cognifyz IT Solutions Pvt. Ltd., Data Analysis Intern (June-2026)
- Active open-source contributor on [GitHub](#) – 4+ end-to-end data science and ML repositories.
- Technical blogger on [Medium](#) – Data Science, EDA, NLP, Statistical Analysis, and Machine Learning.
